Children's Ear, Nose, Throat & Allergy

Eric Jaryszak, MD, PhD; James Kosko, MD; Joshua Gottschall, MD;
Cheryl Cotter, MD

OUR PRACTICE: At Children's Ear, Nose, Throat & Allergy, our mission is to provide the best care to infants, children and adolescents with conditions affecting the head and neck. CENTA is the only otolaryngology practice in Central Florida with four pediatric fellowship-trained physicians, two nurse practitioners and three doctors of audiology exclusively dedicated to the care of children. **ABOUT THE DOCTORS:** Dr. James Kosko and Dr. Cheryl Cotter have practiced together in Orlando for 15 years. They have over 40 years of combined surgical experience with training from Johns Hopkins and Harvard Medical Schools. In 2010 and 2011, Dr. Jaryszak and Dr. Gottschall joined the practice bringing additional expertise from their fellowships at Children's National Medical Center. The CENTA physicians are members of the American Society of Pediatric Otolaryngology, board certified by the American Board of Otolaryngology and are fellows of the American College of Surgeons. **OUR SERVICES:** As part of our commitment to the children of Central Florida, CENTA has brought services never before available locally, including cochlear implantation and programming, microtia repair, bone-anchored hearing aids (BAHA), EarWell application and complex airway reconstruction. We have also been instrumental in the development of specialty clinics for voice and swallowing disorders, cleft lip and palate and craniofacial disorders. As pediatric otolaryngologists, we treat conditions such as allergy, breathing disorders, ear infections, hearing loss, microtia and malformed ears, snoring, cleft lip and palate, sleep apnea, abnormal voice and swallowing, sinus infections, masses of the head and neck and

many other ailments. Our two state-of-the-art offices provide a full range of audiology services including newborn hearing screening, hearing aid fitting and programming, cochlear implant service and programming, auditory processing disorder (APD) testing and advanced hearing testing. We care for children at Arnold Palmer Medical Center and Florida Hospital for Children and often partner with other pediatric specialists to give our patients comprehensive medical care.
